#### WALL STREET AND EXCHANGES.

FOREIGN TRADING .- Foreign houses dealt ! \$5,000 shares in the local market, evenly divided In London consols were firm at \$3%, an advance o % per cent, and Russian bonds were a shad harder. There was no feature of interest in the mining department, and copper stocks were steady. Money was in fair demand in London, but mone; market conditions generally were tranquil, making any advance in the Bank of England rate of Thursday extremely unlikely. There was no new from Russia of a kind to disturb markets, MARKET GOSSIP.—It is understood that th

most considerable bear account in Brooklyn Rapic Transit was stopped at 90, and that a good deal o the buying between that price and 91 was on the execution of this order. One of the most interesting features was the heavy buying of the converti-ble bonds by Edward Sweet & Co. The convertible feature in these bonds is becoming a market factor of importance. I. & S. Wormser and other active houses were good buyers of Pennsylvania. Some of the houses which have been active in Reading have been buying the stock recently, but the Phila delphia houses are not quite so active on the bul side as they have been. When Erle crossed 50 it touched the price that had been expected after the first issue of convertible bonds. It was believed then that the Morgan interest would advance the price to make the bonds look attractive, and it is worth remembering that the second issue of bonds is convertible at 60. Traders who were active in Reading profess to believe that it will touch that price on the present advance. Wolf Brothers, who were credited with the purchase of something like 20,000 shares of Brooklyn Rapid Transit in the day, are believed to have bought about 75,000 altogether in the last week. James R. Keene is said to be one of the principal bulls of the stock, and satisfied that the price will advance further before the present movement is over. The heaviest of the selling or ders in Smelters were in the hands of the special ists and appeared to represent a class of profit taking which has been in evidence ever since the stock crossed 150. There has, however, probably been no pool selling so far. The selling in St. Louis and San Francisco seconds was by S. C. Love & Co., and was considered good. Traders thought this stock came from people in touch with the con The earnings are comparing against the period of the World's Fair, and are making took the short side over night to a moderate extent. believing the London market would respond more readily to a reaction than it has done hitherto to the advance.

SECURITIES LISTED .- The following securities have been added to the Stock Exchange list: West-chester Lighting Company first mortgage 5 per cent bonds of 1950 to the amount of \$556,000: \$2,000,000 additional 7 per cent cumulative preferred and \$1,000,000 additional common stock of the Federal Mining and Smelting Company; \$607,000 additional first mortgage 415 per cent sinking fund bonds of 1917 of the Panama Railroad; \$10,112,000 St. Louis and San Francisco Railroad Company 4 per cent trust certificates issued for the common stock of the Illinois Central; \$1,270,000 additional first mortgage 4 per cent coupon bonds of 1950 of the Western Maryland Railroad Company, also \$10,000,000 general lien and convertible 4 per cent bonds of

HEAVY STRUCTURAL ORDERS. - Railroads have been heavy buyers of structural material within the last few days, the new tonnage eclipsing the best record for a similar period this year. The tonnage for railroad material booked by the American Bridge Company so far this month aggregates 40,000, and the tonnage from other sources 20,000, making a total of 60,000 tons. It is

pany has been completed, and the latter is now in actual and physical control of the former. The consummation of the purchase was ratified and confirmed by the boards of directors of both companies, and the papers relating to the transaction

were delivered yesterday. SMELTERS NOT TO INCREASE STOCK-The report that the American Smelting and Refining Company was considering a plan or scheme for increasing its capital stock is emphatically denied by the officers of that company. One of its chief officers said yesterday that nothing of the kind had

ever been considered or thought of. A DEFERRED DIVIDEND ON REPUBLIC IRON AND STEEL .- The Republic Iron and Steel Company yesterday declared a regular quarterly dividend of 1% per cent on its preferred stock, and an additional payment of 1% per cent on deferred

dividend account was ordered paid. The dividends are payable on January 2 ADVANCE IN COPPER.-Lake copper up 40 h the asking price at 15%c to 17c, electrolytic up %0 in both the bid and asked prices at 15%c to 17c,

and casting up 16c in bid and asked prices at 16%0 ASSOCIATED MERCHANTS DIVIDEND .- The directors of the Associated Merchants Company have declared a quarterly dividend of 1% per cent and one-half of 1 per cent extra on the common

etock, payable December 1.
UNITED STATES REALTY AND IMPROVE-MENT.—At a meeting of the board of directors of the United States Resity and Improvement Company held yesterday Edwin Hawley was elected a member of the executive committee. The executive and finance committee now consists of James Stillman, H. S. Black, P. A. Valentine, Edwin Hawley and John W. Gates.

APPLICATION TO LIST.—Application has been

per cent bonds of 2004 on the Stock Exchange by the Missouri, Kansas and Texas Railway Company.

#### CURB MARKET TRADING.

There was a considerable contraction in the volame of business in the market for outside securities, and while there was a continuance of the firmness which recently has characterized the market at the start it was followed by a reaction, the result of liquidation. Price changes were of only small proportions. Standard Oil on rather heavy dealings advanced more than 5 points; Havana Tobacco stocks were firm at the start, but eventually eased off 1 and 2 per cent. International Mercantile Marine was down %, while the Scaboard stocks ruled strong at material gains. Mackay common made a new high mark at 52%, but subsequently lost the fraction. In mining stocks there was a fair amount of animation, but it was accompanied by irregularity. Greene Consoli-dated was decidedly firmer. Granby was steady. In bonds Albany and Susquehanna 31/28 were strong and active; Havana Tobacco 5s were irregular.

#### IRON AND STEEL ORDERS HEAVY. "The Iron Age" says:

	The bookings of finished from and steel continue exceedingly heavy in all lines, and thus far this month are nearly up to the rate of October. That month was a surprise after the extraordinary record of September, which was not far from double the actual capacity of the mills. It is quite unprecedented that there should be such a volume of buying at this season of the year, when usually the works are eager for winter work. The strain in all directions is tremendous, and prices are kept down only by main force. In the week the leading interest advanced tin plate 10 cents a box, and the sheetmakers put up prices on sheets \$2\$ at on for black and galvanized. It is understood that the American Sheet and Tin Plate Company has now \$2\$ per cent of its capacity in operation. Conferences among the wire manufacturers have resulted in a retention of current values, and in the plate trade an interchange of opinion has led to the continuance of the policy of holding prices uniform. Premiums, however, are paid with increasing frequency.  In the structural trade the inability to make deliveries is still the conspicuous feature. The new mill at Chicago is running, but only on a single turn. A feature of the markets recently has been the demand for structural material and for plates from Canada, and quite a good business has been done in that direction. There is increasing evidence of a shortage of pig from for steelmaking purposes. The Steel Corporation has purchased only a moderate quantity, since the sellers are holding their metal at an advance. Other interests, however, have taken round lots in the Pitteburg district, among them being a plant in the	
	holding their metal at an advance. Other inter-	
d		

to the retention of metal in the Pittsburg district which thus far has been delivered to the East. It is hoped that some accumulation toward the end of the year, when the steel works naturally slacken their output while the blast furnaces continue in operation, may lead to a much desired accumulation of pig metal.
